

Please help us keep our benefits from XM alive. I travel through various rural areas and the local broadcasters cannot even get a radio signal to my car. XM has not only kept me up to date via news channels, entertained with the music I desire, but also Safe with the alerts that are necessary. This is a valuable service that the local broadcasters cannot provide. I choose to pay for these services and it my right to have that choice.

Thank You

Ralph T. Grubb
